

AUTOFORM SOFTWARE LICENSE AND MAINTENANCE TERMS

These License and Maintenance Terms (“Agreement”) apply to any license grant by AutoForm Engineering Spain S.L., with its registered office at Juan de Austria 116, 7^a, 08018 Barcelona, Spain (“AF”) to any end-user (“Licensee”) for the use of AF software products. By ordering, installing, copying, or otherwise using such products, Licensee agrees to be bound by the terms of this Agreement. Any terms and conditions proposed by Licensee inconsistent with or in contradiction to this Agreement shall be void and of no effect, unless specifically agreed to in writing by AF.

1. License Grant

1.1 AF hereby grants Licensee for the applicable license period specified in the applicable offer (“Initial Period” or “Renewal Period”) and in accordance with the type of license applicable to the licensed software (“Named User License” or “Floating License” as defined in each offer) a non-exclusive, non-transferable, non-sublicensable license to Use the software identified in the applicable offer, in object code form, in the version existing as of the order date, and all updates and upgrades thereto supplied by AF to Licensee (“Licensed Software”) and to Use all published documentation related to the Licensed Software, including but not limited to manuals, technical specifications and training materials, supplied by AF from time to time (“Licensed Documentation”, Licensed Software and Licensed Documentation are hereinafter collectively referred to as “Licensed Product”). The intellectual property rights contained in the Licensed Product are owned by AF’s affiliated company AutoForm Engineering GmbH, a company located in Switzerland (“AF-CH”), who also owns various patents protecting such intellectual property rights. (“AF Patents”, as listed at <https://www.autoform.com/en/legal/>). To the extent necessary for Use of the Licensed Product and solely in connection with the Licensed Product, AF, duly authorized by AF-CH, hereby grants Licensee a non-exclusive, non-transferable, non-sublicensable license to use the AF Patents for the applicable license period.

“Use” means reading into and out of memory of the Licensed Software and the execution of the Licensed Software, in whole or in part. The right to Use is restricted to employees of Licensee (“Users”) and does not include the right to assign, rent, sublicense or make otherwise available to any third party, nor permit assignment, rental, sublicensing or making otherwise available of any of the rights granted hereunder, whether by operation of law or otherwise. Any attempt to do any of the above without AF’s prior written consent shall be null and void and shall be considered an incurable breach of this Agreement.

Licensed Product may include software and documentation from a third party, as identified on <https://www.autoform.com/en/legal/3rdPartyProducts/>, which shall be subject to any obligations or restrictions imposed by such third party’s license terms and which shall only be Used by Licensee in connection with the Licensed Products and for the term of the respective license grant.

1.2 Unless explicitly stated herein, no right, title, license, interest or any other proprietary rights, express, implied or otherwise, in or to the Licensed Product or modifications thereof are granted to Licensee. Licensee acknowledges and agrees that, except for content from unrelated third party contained therein, Licensed Product and all copies thereof and any corrections, derivative works or other modifications are AF’s exclusive property and constitute a valuable trade secret.

1.3 License Types

Depending on the type of Licensed Software module ordered by Licensee, Licensee is granted one or several Named User Licenses or Floating Licenses to which the following terms apply:

1.3.1 Named User License

Named User Definition: In accordance with the number of licenses ordered by Licensee as per applicable quote or order confirmation, AF for the applicable license period authorizes employees of Licensee, that are identified with a unique username and password, to Use the Licensed Product from a single machine at any given time (“Named User”). Each Named User may install the AutoForm Products on up to four (4) devices, provided that he/she only Uses the Software on one (1) device at a time and only within the country specified in the applicable quote or order confirmation (“Permitted Country”). To accommodate for the fact that a Named User may occasionally have to travel abroad, Use outside of the Permitted Country is permitted up to a maximum of 40 (forty) days during an applicable license term. For the avoidance of doubt, employees of companies controlling, controlled by or under common control with Licensee (“Licensee Affiliate”) cannot be considered Named Users under this Agreement. Any Licensee Affiliate needs to acquire its own licenses by entering into a separate Agreement with the applicable local AF Affiliate.

Group or shared logins and/or use of automated programs or “user agent” programs or utilities for multiple users are strictly prohibited and considered a material breach of this Agreement. Licensee is

obliged to take all necessary measures to ensure and monitor strict compliance with this provision, e.g. by ensuring that Named Users do not share or use the same username and password.

Replacement of a Named User / Reassignment to a Named User: Replacement of an existing Named User by a new Named User is permitted, provided that the new Named User strictly complies with all Use terms. Permanent or temporary replacement: In case of a permanent personnel change or in case of temporary leave of absence of a Named User (e.g. due to illness or end of a project), Licensee may replace a Named User instantaneously by assigning the Licensed Software to another Named User. In such case, the assigning Named User thereafter will be blocked from Using the Licensed Software during one hundred eighty-six (168) hours ("Blocking Period"), i.e. reassignment of the Licensed Software to such Named User is only possible after expiry of the Blocking Period. Further assignment to a next new Named User, however, is always possible instantaneously, again, provided that any assigning Named User after his assignment of the Licensed Software will be subject to the Blocking Period.

Reporting: Licensee will provide AF upon request with anonymized license server log-files.

1.3.2 Floating License

A Floating License entitles one User at a time to Use the Licensed Software modules specified in the respective quote or order confirmation.

2. Supply and Installation

2.1 Supply

As of the license start date specified in the applicable offer or order confirmation, AF shall provide Licensee with the Licensed Product and with a temporary license key which allows Licensee to temporary Use the Licensed Product from the start date of the Initial Period or of any successive Renewal Period until the payment date of such period (specified in the applicable offer or order confirmation), but which does not imply any right to reject the Licensed Product. Upon receipt of full payment of the license fee/s set forth in the applicable offer or order confirmation, AF shall provide Licensee with a full license key that allows Licensee to Use Licensed Product for the respective license period.

2.2 Installation

2.2.1 Option License Server in the Cloud: The server on which the licenses for the Licensed Software are installed ("License Server") is run in the cloud and is managed by AF, who shall be responsible for the proper configuration and installation. AF uses the Amazon Web Services (AWS) Cloud ("AWS Cloud") and AWS terms and conditions (<https://aws.amazon.com/agreement/>) apply, especially regarding availability of the AWS Cloud during the applicable license term. AF confirms that the AWS Cloud server is located in Europe and any personal data, that may be processed in the course of Licensee's Using the Licensed Software, shall be handled in full compliance with locally applicable data privacy laws, including EU Regulation 2016/679 (General Data Protection Regulation – GDPR). A respective GDPR compliant data processing agreement has been concluded with AWS.

2.2.2 Option License Server on Licensee's Premises: If Licensee installs the license keys for the Licensed Software on a server located on Licensee's premises ("Premises"), Licensee shall be responsible for the installation of the Licensed Software on the hardware platforms and operating systems ("Designated Equipment") located at Licensee's facility identified in the applicable offer or order confirmation. Upon expiration of any current license term, AF at its sole discretion may change the availability of the Licensed Software for Designated Equipments with one hundred and eighty (180) days advance written notice to Licensee. Licensee may submit to AF a written request to change the Designated Equipment. Such request shall specify both the former and the future Designated Equipment including serial number and processor type and may be accepted by AF at its sole discretion. Licensee is required to give written certification to AF that the Licensed Software is no longer Used on the former Designated Equipment. Any further Use of the Licensed Software on the former Designated Equipment by Licensee shall entitle AF to charge an additional license fee. In case the former Designated Equipment is a license server AF shall be entitled to charge license fees for each and any Floating License related to such license server. Operating the License Server as a virtual machine is explicitly prohibited. A separate license is required for each License Server. The licenses are stored in a special license file and must be saved in the installation directory. The AF license validity period is limited by contract and by technical measures.

2.2.3 Option License Server and Licensed Software Application in the Cloud: If Licensee requests to run the Licensed Software application in the cloud, AF grants Licensee the option to separately buy a pre-configured, non-refundable computing capacity package developed and managed by AF ("Cloud Access Solution) and operated by AWS in the AWS Cloud to run the Licensed Software that Licensee bought

under this Agreement. Licensee understands and accepts that the Licensed Software can only be Used either on Premises or in the AWS Cloud. By choosing the option to access the Licensed Software in the AWS Cloud, Licensee agrees that the Licensed Software will not simultaneously be installed and managed by Licensee on Licensee's Premises. If Licensee wants to Use the Licensed Software through the Cloud Access Solution, Licensee accepts that also the Licensed Software licenses are stored on a License Server in the AWS Cloud. Such License Server is managed by AF, who shall be responsible for the proper configuration and installation. Regarding access to the Licensed Software in the AWS Cloud, the statements as per Section 2.2.1 apply accordingly.

3. Maintenance and Support

During the applicable license term, AF (directly or through a designated third party) shall provide Licensee with instructions and advice regarding the installation (only in case of License Server on Premises) and Use of the Licensed Software, and shall by means of telephone, e-mail or internet communication during AF's normal business hours assist Licensee in diagnosing errors, malfunctions and defects of the Licensed Software (excluding unexpected, inaccurate or invalid results obtained) to perform any material function specified in the Licensed Documentation, and shall use reasonable efforts to correct them or to offer work-around suggestions ("Maintenance Services"). Maintenance Services include assistance necessary in connection with, but do not include correction of third-party Licensed Products and do not include assistance necessary as a result of Licensee's not Using the Licensed Product in accordance with this Agreement or the Licensed Documentation. AF is only obliged to provide Maintenance Services for the most current Licensed Product version. Maintenance Services for any other version are provided at AF's sole discretion.

Such audits shall occur after prior notice during regular business hours. If such audit reveals that Licensee has underpaid any fees due or uses Licensed Product in an unauthorized manner, Licensee shall immediately pay AF any amounts due, together with interest for late payment of one (1) percent per month, but in no event exceeding the highest rate permitted by applicable law. Licensee shall also reimburse AF for all reasonable costs incurred in connection with the audit. In addition, AF expressly reserves the right to take legal action.

- 5.3** All applicable charges shall be due and payable to AF on the payment date of the respective period, as specified in the applicable offer.
